

# Community Resiliency

**When communities are safe, healthy, and thriving, so are the people and families who live in them.**

Providing basic needs, support and resources to people who need it most is critical to lifting more families out of poverty.

United Way and its partners are creating positive change in communities throughout the region—by identifying gaps, seeding new partnerships and adding strength in times of crisis and need. **Here's a glance at how:**

## RAPID RESPONSE FUND

When disaster strikes or rapid response is needed, we're there to help. From Hurricane Sandy to Covid-19, we quickly deploy resources and support to the people who need it most.

## 2-1-1

24/7, this hotline Help is just a call away with 2-1-1. This 24/7 Hotline connects people to resources and services related to gun violence prevention and free, confidential help with food, utilities, rent, and more.

United Way of Greater Philadelphia and Southern New Jersey leads the region's largest, most powerful fight to end poverty and expand opportunity for all. **But we can't do it without you.**
